

Next-Gen AI-Powered Collaboration

Enhance Your IFPs With Cutting-Edge AI That Transforms Collaboration, Learning, And Productivity. Our AI-Driven Features Bring Intelligent Handwriting Recognition, Real-Time Transcription, Smart Object Detection, Automated Meeting Summaries, And Advanced Gesture Controls - Seamlessly Integrated Into Your Panels.

From Education To Enterprise, Empower Users With A Smarter, More Intuitive Experience. Increase Engagement, Simplify Workflows, And Set Your Displays Apart With AI That Adapts, Enhances, And Evolves.

100+ Features. Smarter Displays. Unmatched Innovation.

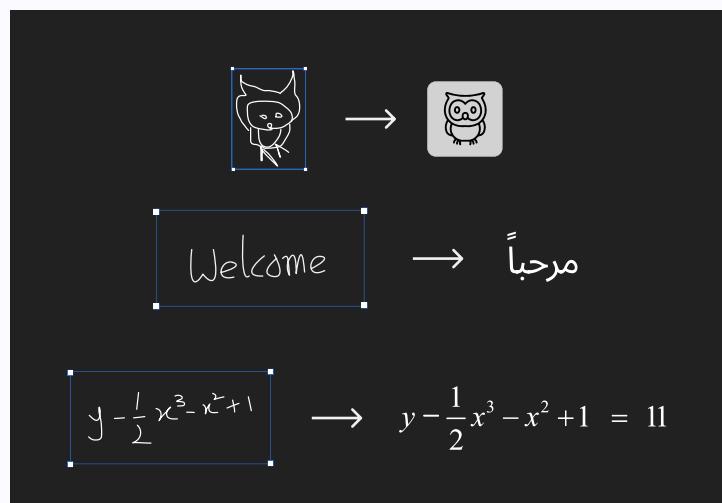

Experience the future of collaboration

GET WRIETY TODAY!

Unlock the Power of AI for Creativity, Learning, and Problem-Solving

AI Freehand Recognition for Language, Math, and Sketches

Advanced language, math, and doodle recognition in 194 languages. Write freehand to let AI convert it into contextual, standardized output. Perform arithmetic and turn hand-drawn diagrams into flowsheets. Draw freely, and AI predicts your sketch, offering useful insights.

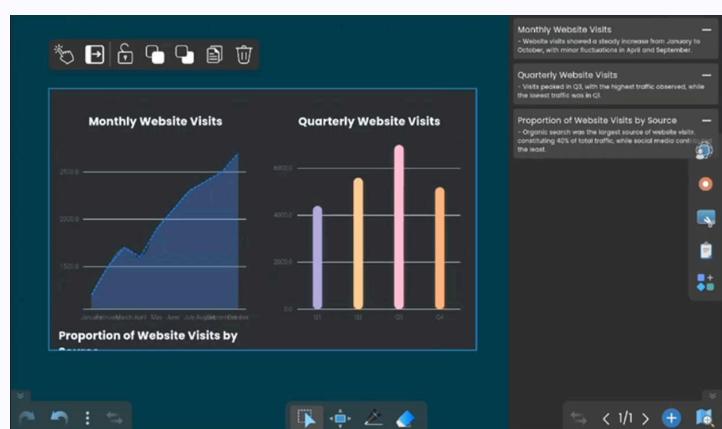

Be an expert at anything and everything

Write or crop anything, and let AI provide relevant information, images, or videos. Create 2D/3D graphs, sketch your ideas, and get detailed insights, Q&A, and more. Solve equations effortlessly or explore complex chemical bonds with AI by your side. Whatever the topic or subject, we've got you covered

Best in class Advanced Agentic AI workflows

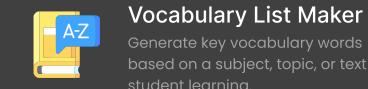

World-class agentic AI to boost productivity like never before. Have a concept in mind? Let AI create mind maps, interpret relationships, break down complex problems, grade student work, analyze data trends, and create collaborative activities with just a few clicks. Be the smartest in the room.

Revolutionize Learning, Creativity, and Productivity with Over 100+ AI APIs

Learning & Education

Simplify teaching and learning with AI tools that generate vocabulary lists, critical questions, and text summaries to engage and inform students.

Vocabulary List Maker

Generate key vocabulary words based on a subject, topic, or text for student learning.

DoK Questions

Generate Depth of Knowledge Questions for a topic or objective for a standard

Grade me

Grade your scores of your tests which you can upload

AI debate partner

Create a debate partner and use logic to debate on any topic

Chat with documents

Add documents to the chat window and ask questions about the content in the documents

Assessment scaffolder

Generate tailored guidance to approach an assessment question

Advanced AI Applications

Tackle complex tasks with AI tools for document insights, debate practice, and automated grading.

Idea development tool

Use AI to expand on your ideas to help you be creative

Image creator

Generate and edit images with AI

Song composer

Based on a custom criteria, have AI give areas of strengths & areas for growth on student work

Creative Features

Bring ideas to life with AI tools for brainstorming, composing educational songs, and creating custom visuals for projects.

Project based learning

Based on the principles of Project Based Learning (PBL), create a full project plan.

Mind Map

Generate complex mind maps with the click of a button

Data insights

Generate Data insights by uploading a .csv or .xlsx file

Productivity & Workflow

Stay organized with mind maps, streamlined project planners, and AI-powered data analysis for smarter decision-making.

Transform the IFP experience with our industry-leading AI, trusted and proven by top brands in the IFP market.
